

Work in Water (WiW) funds are limited to participants of the WiW Training, and can only be used to fund transportation or internships. The program is intended to support requests ranging \$500 to \$,500.

Applications that include an internship will be scored out of 100 points. Applications that do not include an internship will be scored out of 75 points.

A solid yellow rectangular bar spanning the width of the page, located below the horizontal line.

I have the following questions regarding the implementation of this Work in Water project:

I recommend providing this utility with the full amount of the requested funds for this project.

Due to lack of clarity, planning or other reasons (please describe below), I do not recommend funding this project at this time.

I recommend providing this utility with partial funds for the implementation of this project.
Please describe partial funding recommendation below.
