Clinical Team Contact Information

^ Z v > ,] D ^ U \mathbf{W} Director of Clinical Education

: µo] ^ o -C W Director of Clinical Development & Operations

> D o v] o Clinical Coordinator

Welcome to our Educational Team!

Our vision at the Wichita State University's Physician Associate Program is "excellence in PA education." As a clinical preceptor, you are an integral part of our success, the success our students, and ultimately the high-quality healthcare that our future PAs will provide to the residents of Kansas and beyond.

In this new era of our profession, your support of our clinical year students will help lead the next generation of providers that will respond to the ever-changing needs of our healthcare system. As the demands from this system increases, our profession needs to respond through availability, affability, and ability. We believe the high-quality education provided at WSU's PA program, and your clinical training, is responding to the call to increase availability of providers, creating a culture of providers

- o Will the preceptor be busier?
- o How patients will be scheduled for the student

The staff of a clinical site has a key role in ensuring that each student has a successful rotation. By helping the student learn about office, clinic, or ward routines and the location of critical resources, they help a student become functional and confident.

Please encourage your office staff to contact tReogramif they have questions or would like additional information: PAClinical@wichita.edu or (31978-5682 or978-9 ((m)-1i)-1dumtteyvear (-(o)4al2.6 (P)(,)o)-6..913 0 (-(o)q1n)(m)t-(o)o

Student Evaluations (Overview)

To ensure ease with the grading process, all evaluations will either be provided to you by the student or sent to you via		
email (noreply@exxat.com). The preceptor evaluation of student performance is a significant portion of the student gr	ade.	
Grades cannot be calculated or submitted to the University until your evaluations have been completed. o [] v

n When evaluating sturdents, be aware that they a

competency in these basic skills is essential for the graduating PA. <u>Students are NOT expected to acquire all these skills</u> <u>within a single rotation</u>. This preceptor assessment is not calculated into the course grade for an individual rotation; however, preceptors are asked to assess their performance at the end of each rotation to ensure that they are making adequate progress. Students are expected to achieve a rating of "3 – able to perform independently" for each clinical skill prior to Program completion. Student proficiency in performing the listed clinical skills should be assessed utilizing the following scale:

3 –

^ µ v Z }v]]o]]

In addition to adhering to the standards of professional conduct outlined later in the handbook, students are expected to perform the following during their clinical rotations:

- x Obtain detailed histories and conduct physical exams, develop a differential diagnosis, formulate an assessment and plan through discussion with the preceptor, give oral presentations, and document findings
- x Perform and/or interpret common lab results and diagnostics
- x Educate and counsel patients across the lifespan regarding health-related issues
- x Attend clinical rotations as scheduled in addition to grand rounds, lectures, and conferences, if available to them
- x Demonstrate emotional resilience and stability, adaptability, and flexibility
- x Notify preceptors of all absences (planned or otherwise) in a timely manner
- x Be sure all financial obligations are satisfied before leaving a rotation (e.g. room-key, deposits, returning all rotation property)

^ µ v v v `]}v

- 1. <u>Designated State/University holiday</u> students are aware there are not guaranteed holidays during the clinical year. Students are expected to be at the clinical rotation site for any days surrounding holidays when the rotation site is in operation. If the clinic/office is closed the day prior to the holiday and the preceptor will not be available, students may be given the day off as well. Students will be given rotation schedules to include Program approved holiday breaks for Thanksgiving and Christmas prior to starting second year clinical rotations.
- 2. <u>Planned Absence</u> xpected absences must be approved in advance with the preceptor <u>and</u> with the Program. If the Program requires the student to be gone from a rotation, the Program will notify the preceptor directly.
- 3. <u>Unexpected Absences</u>tudents are expected to notify the preceptor <u>and</u> Program as soon as possible if unable to attend a rotation due to significant personal illness or family emergency.
- 4. <u>Absence Notification For</u>mStudents are also required to complete an absence notification form for all missed rotation time. This form should be completed in advance if the absence is planned or within 3 days of an unexpected absence. This form requires your signature as the preceptor.
- 5. The preceptor has the right to request specific medical release for an illness-related absence or documentation related to any other absence.

d] u ^ Z Requirements

 $W\mu$ } tW better allow the WSU Clinical team to evaluate educational exposure, preceptor schedules and affect of absences on student learning.

^ μ ν Ζ μ] u ν W

- x Students will be required to fill out daily timesheets to record actual time spent in rotation
- x Student absences reported on your final evaluation will be corroborated with student reported absences to ensure reports are congruent.

The clinical year takes students from the theoretical classroom setting to an active, hands-on learning environment to prepare them for a lifetime of continued skill refinement and expanded knowledge as a practicing PA. Mastery of clinical knowledge

& D > K : Demonstrate core <u>medical knowledg</u> of established and evolving biomedical and clinical sciences and the application of this knowledge to patient care, as demonstrated by the following <u>instructional objectives</u>

& D / K í W Apply knowledge of anatomy, pathophysiology, epidemiology, etiology, and risk factors to the care of patients encountered in FAMILY MEDICINE.

& DIO 1b Wselect/interpret laboratory and diagnostic studies commonly encountered in FAMILY MEDICINE.

& D / K í W Formulate differential diagnoses for common conditions in FAMILY MEDI&INE

& D / K í Rhescribe/monitor pharmacotherapy for conditions commonly encountered in FAMILY MEDICINE.

& D / K í Demonstrate clinical reasoning and problem-solving skills as it relates to FAMILY MEDICINE.

& D > K Definition Definition of the following by the following instructional objectives

& D / K î W Elicit mprehensive medical history and perform complete and focused physical exams across the lifespan.

& D / K î W Formulate evidentozafskéd--
