- ! When you select the option Raw Data it will create the Excel file for that course.
- ! The downloaded Excel file will contain data about the user responses, including timestamps and course information.
- ! It will show in the RawData tab the data from each student without any identifying information.
- ! The QuestionMapper tab will show what the questions are in the evaluation.

A screenshot of a web application interface for an evaluation portal. The top navigation bar includes "Evaluation", "KIT", "Home", "Results", and "Custom Questions". The main content area is titled "Project Results" and features a "Batch Report" button. Below this, there is a table with columns for "Course Code", "Project Name", "Report Status", and "Report Date". The table lists two entries for "BIOCHEM". A "Download" button is visible next to the second entry. At the bottom of the table, it says "Total: 3". A pagination control at the bottom right shows "Page 1 of 1".
